NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: A nutty addition to a healthy diet. Enjoying a handful of nuts is a pleasure for most people. But the thought of fat in nuts may keep some from savoring that pleasure. Nuts are high in fat, but the fat in most nuts is healthy, monounsaturated fat, which can help lower blood cholesterol. Good sources of monounsaturated fats include peanuts, pecans, walnuts and almonds. In addition, research studies have shown that many different nuts are helpful in reducing the risk of cancer and elevated blood pressure. Nuts also provide protein, carbohydrates and a wide variety of vitamins and minerals. But wait, there's more. New research shows that eating plans which include nuts are more satisfying, leading people to eat less and control their weight. So, enjoy nuts in your eating plan. The key is watching your serving sizes. Source: <http://www.eatright.org/erm/erm071702.html>. <mailto:orrindl@kscems.ksc.nasa.gov>. (TA-C2)

INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Robert Cobb, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. MISUSE OF THE NASA INSIGNIA: Use of the computer templates, containing the NASA Insignia, for the production of NASA letterhead in electronic form is not authorized and should be removed from all computer systems. The Associate Administrator for Public Affairs has requested all NASA centers use only the printed NASA letterhead stationery. "The use of computer file NASA Insignias to custom design stationery provides opportunities for image manipulation and standards degradation which will adversely reflect the professional image of the Agency." If not approved for specific applications, electronic images of the NASA Insignia ("meatball") should be removed from computer systems. (TA-E1)

RECORDS RETENTION/DISPOSITION: Each office which maintains NASA records, including NASA owned/contractor-held records, will use as many of the categories in NPG 1441.1 (as revised) as necessary to cover the disposition of records in their custody.
